Dear Sir:

Members of your firm assisted my wife and I in the planning, selection and installation of a Granite countertop for our kitchen and completed installation on June 16.

Your Sales Representative, Brenda Thompson, provided knowledgeable insight, observations, patience, a tour of the back lot and provided us with samples of Granite for our consideration. Her demeanor and professional manner, prompted me to tell her, the experience made me feel: The most comfortable I have ever felt spending six thousand dollars.

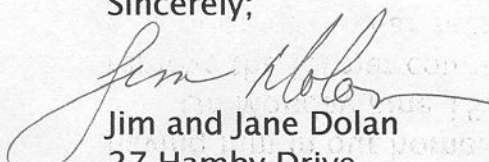

Of course Snake came by and spent several hours in our home to prepare the templates for the counter top. He was most courteous, worked silently, with intense concentration, and when he was finished thanked us for having him in our home.

On Monday June 15, Dirt, Scott and Zack arrived and proceeded to remove the former counter top and install the Granite countertop with the exception of the Bar section. We were amazed how quietly they performed this entire process. They appeared to clean up after each step they took, and were the most pleasant and happiest crew of technicians I have ever observed.

On Tuesday June 16, Tim, Larry and Keith arrived and installed the Bar section. They were meticulous in their attention to detail, in inspecting all the work previously done, in caulking the seams, cleaning the counter top, and left the kitchen spotless. Both groups of men worked impressively as teams and obviously enjoyed their work.

Your entire staff was courteous, professional and exceeded all our expectations. My wife and I were delighted with our experience.

Sincerely;

Jim and Jane Dolan
